

# H1 plastic palette

## characteristics

Equipped with 3 longitudinal skids.

Bottom of feet and runners closed and hygienic.

With circumferential securing edge against slipping of cargo and empty pallets with each other.

Extra strong due to the sloping connection of runners and feet.

Breakage damage at these sensitive points is thereby reduced to a minimum.

<b>Colour</b>	grey
<b>Outer dimensions (mm)</b>	1200 x 800 x 160
<b>Net mass (kg)</b>	18
<b>Boxes per palette</b>	104 Stück
<b>Material</b>	HDPE (lebensmittelecht)
<b>Temperature</b>	-30°C - +40°C
<b>Equipment</b>	RFID Transponder
<b>Payloadt (kg)</b>	
<b>Static</b>	5.000
Compressive strength with flat ground support and uniformly distributed load at approx. 20 ° C room temperature.	
<b>Dynamic</b>	1.250
Dynamic load on the fork with selected evenly distributed load at approx. 20 ° C room temperature.	
<b>High level rack</b>	1.000
With evenly distributed load over the long sides, two-point support over 100 hours at approx. 20 ° C room temperature.
