

RL KLT

serie

The abbreviation RL stands for **Redesign Light** and indicates the diminished container weight, while raising the filling capacity. The payload of the RL-KLT bins amounts to 20 kg. Thanks to the flat surface on the bottom, the usable capacity will expand. The slick single-wall construction offers a great stability. All RL-KLTs are made of recyclable polypropylene material.

Features: ergonomic handles, handy side grip, hoisting enabling a vertical and stable grip.
